Course Notes:

To improve access and minimize your cost, most physical and digital course are included with your tuition and fees through the Resource Fee. On this website you will order your physical course materials. If a course has digital course materials, that will be accessible through Blackboard on the first day of class.

All physical course materials ship UPS free to your home, or you can choose to pick up your order at one of our locations by choosing Pooler Bluff, Silkeston, Dexter, or Kennett as a pickup location when ordered here online. Only place an order for a class if you are currently registered for the class for this semester. If you are not enrolled in the class, or wait-listed, do not place an online order for that class.

If you see Price TBD Rental it is an item in most cases covered under the Resource Fee, and it will be scanned out to you to use for the semester. A charge will place on your college account for some course materials, optional rentals, optional buy books, MLT and OTA courses. We recycle all physical course materials, and those materials included in the Resource Fee will need to be returned by the last day of finals of the semester first checked-out.
